## CIX Exchange to reflect Article 6 labels & add instruments with Article 6 authorisation to single project instrument list

Following Gold Standard's [announcement](#) of attaching Paris Agreement Article 6 ("Article 6") authorisation labels to carbon credits on its registry, we are pleased to share that CIX Trading Portal is now able to reflect these labels under a newly created column 'A6 AUTH'. The new labels will specify the authorised uses of the respective credits, in line with the guidance from Article 6.2 – towards Nationally Determined Contributions ('NDC'), international mitigation purposes ('IMP') or other purposes ('Other'). An 'All' label reflects authorisation for all three uses.

Users may search (refer to Image 1) or filter (refer to Image 2) for instruments that have Article 6 authorisation labels on the CIX Trading Portal.

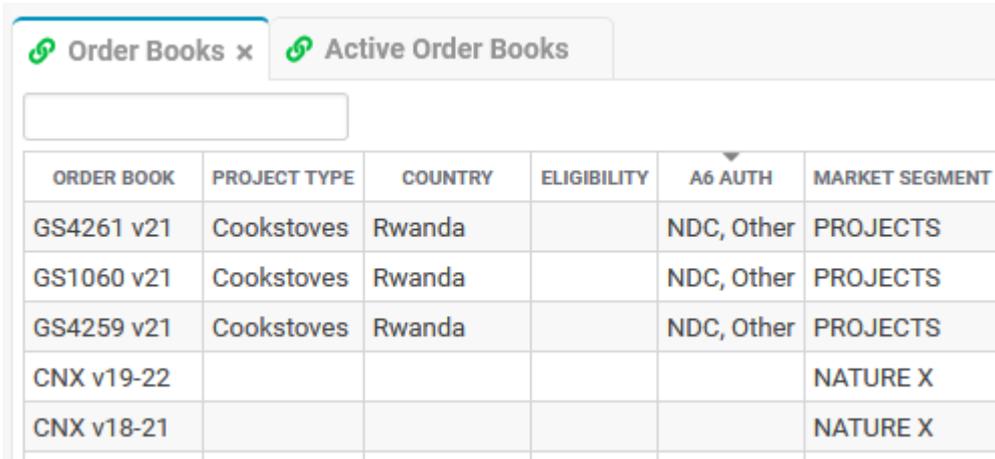

Following this, the three projects that have received the first Article 6 labels from Gold Standard - Improved Cook Stoves programme for Rwanda (GS1060), CPA 4 Improved Cook Stoves programme for Rwanda (GS4259) and CPA 5 Improved Cook Stoves programme for Rwanda (GS4261), have been added to the single project instrument list. In line with our spot exchange change governance process available [here](#), Climate Impact X (CIX) continually monitors market conditions and analyses where updates are necessary.

Project ID	Project Name	Vintage	Asset Symbol	Project Type
<b>GS1060</b>	Improved Cook Stoves programme for Rwanda	2021	GS1060 v21	Cookstoves
<b>GS4259</b>	CPA 4 Improved Cook Stoves programme for Rwanda	2021	GS4259 v21	Cookstoves
<b>GS4261</b>	CPA 5 Improved Cook Stoves programme for Rwanda	2021	GS4261 v21	Cookstoves
